

If you love fishing and friendship and fun, please call us! We organize fishing trips for small groups, maximum 10 people. Here are our specialties: trolling with live bait, bottom fishing, vertical jigging, drifting tuna.

Where are we taking you? To Croatia!!!

We also organize excursions by boat to get to know and meet the dolphins up to dose. In the morning, these acrobats of the sea, are driven by hunger and are moving offshore. It's time to go out by boat to catch them while they play with each other and perform beautiful stunts. We will have with us the marine biologist Darja Ribaric who will give us all the information about these beautiful mammals.
